## ABOUT ME

I am a passionate and detail-oriented Software Engineer with a strong interest in building responsive and user-friendly Websites. I enjoy learning new technologies and improving my coding skills to create efficient and creative solutions. I have practical experience in developing web-based systems. I aim to apply my knowledge effectively and contribute to meaningful projects in a professional environment.

## WORK EXPERIENCE

### Frontend Developer
**July, 2025 – Aug, 2025**

Advance Era Tech

Worked on developing and designing responsive websites. Assisted in implementing new features, fixing UI issues, and improving website performance. Gained practical experience in coding, testing, and collaborating with the development team.

### Frontend Developer
**June, 2025 – Present**

JSoft Technology

Contributing to website and application development by writing clean, efficient code. Supporting ongoing projects, debugging issues, and enhancing user experience. Continuously learning modern tools and improving development skills through real-world tasks.
